

AN ELEMENT OF OPTIMAL ENERGY SOLUTIONS

Providing companies the tools to optimize efficiency and safety for their energy resourcing needs.

Trident Energy is established with the motive of supporting oil and gas companies for all their supply chain needs to boost their business in this competitive market. The objective of Trident is to provide its clients with the advantages of economy of scale by having association with reputed manufacturers and service providers in the segments of oil and gas chemicals, industrial gases, equipment rentals and logistics, while curbing in supply chain spending of companies.

US

With more than decade experience in managing supply chain in reputed oil and gas companies in India the team of Trident Energy came together to provide an one stop solution company for major supply chain need with commitment of timely delivery and quality while being most cost effective in PAN India basis while its oil and gas chemical supply solution is catered worldwide.

TRIDENT values that speak to you

Precision

Offering the most precise energy solutions making sure that there is no room for error.

Optimization

Ensuring that your services always run optimally through our constant focus of technological advancements.

Safety

Maintaining safe industria practices by following and updating the safety protocols in line with the industry standards.

Efficiency

Making sure that our solutions are able to get the maximum output thereby helping our clients achieve maximum growth.

Innovation

Offering the most high end products and energy solutions by focusing on intelligent design and technological progress.

Durability

Dedicating all our resources to ensure that our clients demands are met ever if there are external hindrances

On Time

Punctuality is a key in achieving maximum productivity outputs and we do just that with our high regards for our client prescribed deadlines.

The **Trident** Trust

Why industry leaders believe in Trident for their energy solutions

We at Trident are proud of our partnerships and alliances that have led to major innovations in the energy sector. With our extensive in chemical management in the oil and petrochemical industry, we are able to deliver solutions that boost manufacturing output while being cost-effective.

Trident offers custom solutions in oil and water treatment which aids to ensure that your output targets are met. Our extensive logistics and warehousing solutions coupled with our safe and efficient delivery channels, ensures a reliable supply of chemicals and services world-wide irrespective of its volume.

With TRIDENT there is no room for trial and error

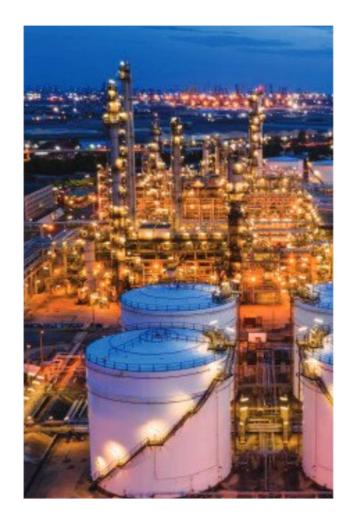

- Partners with leading manufacturing f_irms.
- Partners with the biggest logistics firms.
- Advantages of economy of scale irrespective of order volume.
- One stop solution of major supply chain needs.
- Worldwide shipping.
- Need based technology to meet unique demands.
- Attention to safety in every step, from manufacturing to delivery.
- Practical experience and knowledge-based approach.

Our **Inventory**

When Production **Meets Innovation**

Trident ofers a wide range of products pertaining to oil and gas production and exploration along with services of logistics, transport and warehous ing to support and deliver the products at your preferred location in any part of world.

Mud Chemicals

Production **Chemicals**

Xylene

Corrosion Inhibitor

Demulsifier

Tri Ethylene Glycol

Poly Aluminium

Potassium Chloride

Well Stimulation Chemicals

- Acetic Acid
- Acid Corrosion Inhibitor
- Acid Foamer
- Ammonium Bif_luoride
- Ammonium Chloride
- Citric Acid
- Emulsifier
- Ethyly Acetate
- High Strength Proppant (Grade 1& 2)

- Hydroxy Ethyl Cellulose
- Monoethylne Glycol
- Non Emulsifier
- Oil Foamer
- Potassium Chloride
- Sand for Gravel Pack
- Silica Flour
- Sodium Acetate
- Sodium Nitrite
- Sodium Silicate

Cement **Additives**

Boric Acid

Fly Ash Classified

Hematite For Cement

Micro Fine Cement - Halcon Grade

Silica Flour(F/M/C) I

Silica Fume

Liquid Defoamer

Chenisphere HEC Polymer

Chemicals For Completion Fluid

Calcium Bromide

Zinc Bromide

Sodium Formate

Potassium Carbonate

We have great chemistry with our clients due to our optimized solutions

Our chemical division ensures that we of_fer our clients sustainable solutions by customising our production as per their needs. With over 10 years of experience in providing cost-ef_fective solutions to the oil and gas industry, we specialise in upstream oil and gas catering along with providing generic and speciality chemicals that are used to improve well performance. We make sure that your exploration and production needs are met with the highest safety standards, in an eco-friendly way.

Core **Chemicals**

WAX Inhibitor

Emulsif_ier Breaker (Grade 1,2)

Corrosion Inhibitor (Acid Base, Amine Base)

H2S Scavenger

Non Emulsif_ier (Grade 1,2)

CMC- HV,I (Carboxy Methyl Cellulose)

CM C- LV

Demulsifer

Micro Fine Cement

Cenosphere

KCL (Potasium Chloride)

Calcium Carbonate

Xylene

EGMBE

Acid Foamer

Citric Acid

EDTA. DTPA

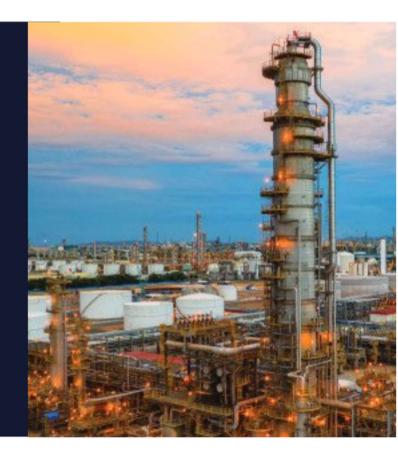

NTA

Benzoic Acid

Rock Salt

Sodium

Hypochlorite

Trident **Services**

Trident services are confined to PAN India as of now which include logistics, oil and gas equipment rental and industrial gas supply.

Trident **Logistics**

- Handling and shipping of shipments to and from India.
- Transport of ODC equipment on PAN India basis.

Trident Aggregator Service

Trident has association with reputed manufacturers of items related to oil & gas industry and can support the clients on their project requirement as bundle service provider for

- Casing accessories
- Float Equipment
- Gaskets
- Bulk Handling Equipment
- Mud Tanks
